

Transcription Services
Features & Benefits

Physician/Dictator Benefits:

- Simplify your document management with a single interface.
- Dictate easily using a toll free number.
- Share documents with referring and collaborating physicians.
- Reduce chart-pulls with online access to patient data for billing, script renewal, and referrals
- Batch download, print, or email right from your desktop
- Save time and reduce delinquencies by receiving and signing reports electronically.

Administrator Benefits:

- Increase efficiency with automated report printing and distribution
- Increase productivity and turnaround time
- See the status of complete and incomplete jobs in real-time
- Customize work flow templates for routing jobs
- Search your documents by content to retrieve important data or compile statistics
- Sort all lists by transcriptionist, work group, work type, dictator, or priority
- Generate audit trails for HIPAA Reviews.

Issues and Problems

ScribeCare services can help any Health care provider to add and maintain accurate and up to-date patient records in a coordinated database. Our technologically-advanced system and highly-skilled and experienced medical language experts provide the highest quality medical documentation service at the best prices.

Benefits of Outsourcing

When you farm out your medical transcription needs to ScribeCare, you will reduce your expenses and gain in quality, speed, and control and we will adapt to you to streamline your business processes and increase efficiency. Clients can create work groups for optimal performance and customize templates to best meet the needs of insurance requirements and government compliance. And best of all, because it's a subscription based system, you pay only for what you use.

Management Tools

Client management will be able to track the performance and cost of their outsourced medical transcription work in real-time from any place with Internet access. In addition, managers can compile statistics such as costs per report, costs per physician easily and quickly.

Quality Assurance

ScribeCare is dedicated to providing the highest-quality transcription service in the industry. All of our quality assurance standards and practices adhere to the AAMT standard and are HIPAA- compliant.
